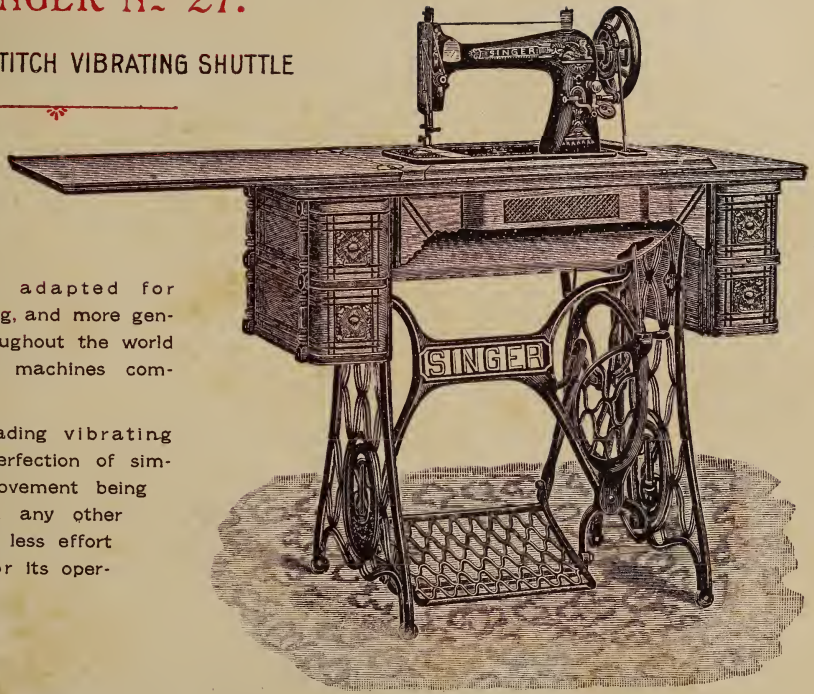
THE SINGER IN THE FAMILY.

THE SINGER CABINET TABLE (CLOSED.)

SINGER cabinet work received the highest award at the World's Columbian Exposition for "excellence of ornamentation, both in carving and metal; because of the good workmanship in construction, the convenience of certain contrivances, and the superior finish of the whole."

THE SINGER № 27.

DOUBLE LOCK-STITCH VIBRATING SHUTTLE



ESPECIALLY adapted for family sewing, and more generally used throughout the world than all other machines combined.

The self-threading vibrating shuttle is the perfection of simplicity. Its movement being shorter than in any other similar machine, less effort is required for its operation.

POINTS TO REMEMBER.

IF YOU BUY A SINGER,

You Get the Best.

THERE IS as great a difference in the cost of making a sewing-machine as there is in making a watch. A cheap watch will indicate time with fair accuracy for a short time; fairly good stitching can be done on some of the old patterns of cheap sewing-machines, when they are new, but they always work hard, are noisy and soon wear out.

Every Singer machine is tested by actual sewing at the factory; it is always ready for every kind of stitching and will do better work and do it longer than any other, because it is of better design and construction.

Test these assertions by trial.

FACTORY IN MONTREAL, SALESROOMS IN EVERY CITY IN CANADA.

THE SINGER No 24.

AUTOMATIC CHAIN STITCH

SIX-DRAWER CABINET TABLE

THE SINGER AUTOMATIC

The general advantages of this type of machine for family sewing comprise greatest ease and quietness of operation, simplicity of construction, and the elasticity of the single-thread seam. When needle is threaded the machine is ready, the stitch requiring neither bobbin nor shuttle. The thread is taken from one spool, and is so interwoven and twisted that seam cannot rip unless its finished end be unlocked. When this is done the entire length of thread can be quickly withdrawn without injury to the fabric. Guaranteed to be in every point the best single-thread chain-stitch machine on the market.

The Six-Drawer Cabinet Table for Machine No. 24 is furnished only in Oak (No. 5130).
